TARGET SCORE

80% on Academy11 papers (Academy11 target for this school)

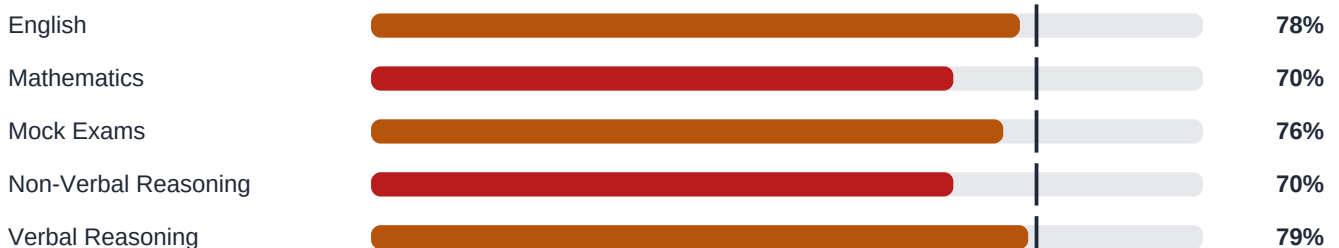

RECENT AVERAGE

78% over the last 10 tests

Close to target

Maya's recent average of 78% is 2 points below the 80% target - within reach with steady practice.

RECENT AVERAGE BY SUBJECT (LAST 5 TESTS EACH) - LINE MARKS THE TARGET

Estimated standardised score

114-122

Most likely around 118, from 6 recent papers. 100 is average for children of the same age; many grammar school areas using GL tests set their qualifying score at around 121, but this varies by school. This is Academy11's own age-adjusted estimate to guide practice, not an official GL or CEM score. It is a range because one paper can't pin a score down exactly; it narrows as more papers are completed and more children sit the same papers.

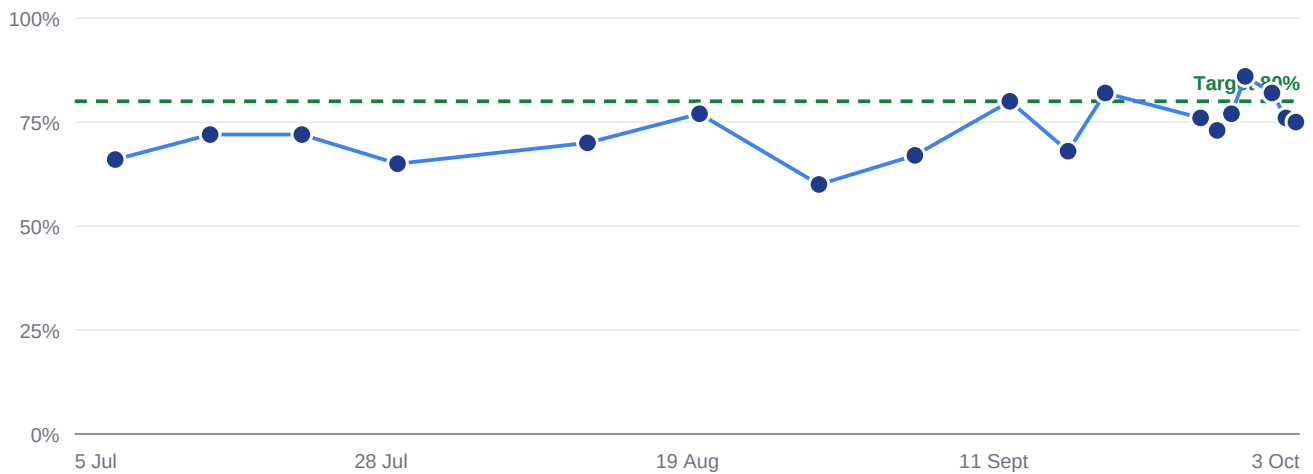

Paper	Date	Score	Estimate	Compared with others
Non-Verbal Reasoning Paper 4	3 Oct 2026	75%	111-125	Higher than 89% of 176 children
Maths Paper 4: Fractions, Ratio & Problem Solving	2 Oct 2026	76%	103-119	Higher than 77% of 248 children
English Paper 4: Comprehension (Non-fiction)	1 Oct 2026	82%	115-131	Needs 30+ children (22 so far)
Verbal Reasoning Paper 4	29 Sept 2026	86%	116-128	Higher than 93% of 197 children
Maths Paper 3: Geometry & Measures	28 Sept 2026	77%	111-125	Higher than 89% of 264 children
Non-Verbal Reasoning Paper 3	27 Sept 2026	73%	106-120	Higher than 81% of 212 children
Academy11+ GL-style Mock Exam: Autumn (mock exam)	26 Sept 2026	76%	114-122	Higher than 79% of 412 children
Verbal Reasoning Paper 3	19 Sept 2026	82%	116-128	Higher than 93% of 251 children
English Paper 3: Comprehension (Fiction)	12 Sept 2026	80%	110-123	Higher than 86% of 233 children
Non-Verbal Reasoning Paper 2	5 Sept 2026	67%	104-117	Higher than 75% of 254 children
Verbal Reasoning Paper 2	20 Aug 2026	77%	111-123	Higher than 86% of 305 children
Maths Paper 2: Fractions & Decimals	12 Aug 2026	70%	109-123	Higher than 84% of 287 children

Subjects

Subject	Tests	Average	Previous 90 days	Trend
English	3	78%	68% (2 tests)	Up 10 points
Mathematics	6	70%	61% (3 tests)	Up 9 points
Mock Exams	1	76%	-	No earlier tests
Non-Verbal Reasoning	4	70%	59% (2 tests)	Up 11 points
Verbal Reasoning	4	79%	66% (3 tests)	Up 13 points

Test scores over time

Each dot is one completed test (18 in total). The dashed line is the 80% target.

Strongest and weakest topics

Share of questions answered correctly in this period (tests and practice), for topics with at least 3 answers. 60% or more counts as strong.

Strongest

Synonyms and Antonyms	92%
Verbal Reasoning · 47 of 51 correct	
Percentages	92%
Mathematics · 33 of 36 correct	
Area and Perimeter	90%
Mathematics · 26 of 29 correct	
Letter Codes	86%
Verbal Reasoning · 38 of 44 correct	
Punctuation	83%
English · 30 of 36 correct	

Needs more practice

Cube Nets	50%
Non-Verbal Reasoning · 9 of 18 correct	
Ratio and Proportion	52%
Mathematics · 13 of 25 correct	
Word Problems	57%
Mathematics · 12 of 21 correct	
Reflections and Rotations	58%
Non-Verbal Reasoning · 11 of 19 correct

Creative writing

Maya submitted 4 pieces of creative writing in this period. The average overall score from feedback was 68 out of 100.

Progress summary

Written by our AI tutor on 3 Oct 2026, after Maya's most recent test.

Maya has had her strongest month yet: scores are up in every subject, and the estimate is now 114–122, just around Oakfield's 121.

Across 18 papers in the last three months Maya averaged 74%, and her last five papers averaged 79%. Verbal Reasoning has moved furthest, from 72% in July to 86% on Paper 4, and English comprehension is consistently strong. The autumn mock (76%, higher than 79% of the 412 children who sat it) agrees with her practice papers.

Maths is improving steadily: her third go at Maths Paper 4 scored 76%, up from 60% in August. Most lost marks now come from ratio questions and multi-step word problems, where she finds a correct value but stops one step short of what the question asks.

Non-verbal Reasoning is the subject to watch. It is up from the previous three months, but it is still her lowest, with cube nets and reflections costing the most marks. In the mock she also ran short of time at the end of the Non-verbal section.

Going well

- Best Verbal Reasoning score yet: 86% on Paper 4.
- Retrieval and vocabulary questions in comprehension are reliably right (over 80%).
- A 9-day practice streak, with the daily goal met on 6 days this week.

Worth watching

- Ratio and Proportion (52% right) and Word Problems (57%) are the weakest maths topics.
- Cube Nets (50%) and Reflections and Rotations (58%) hold back Non-verbal Reasoning.
- Pacing: in timed papers she sometimes reaches the last few questions with too little time.

Suggested next steps

- Two short weak-topics rounds a week on Ratio and Proportion, checking each answer against the question.
- One Non-verbal Reasoning paper a week, using the halfway checkpoint to stay on time.
- Keep up the reading: discussing why a writer chose particular words will lift the author's purpose questions.
